

3rd OnLineInset National Conference

Friday 1st October 2010

Edgbaston Cricket Ground and Banqueting Centre, Birmingham

Since being established in 2008 OnLineInset Ltd. has continued to grow and is supported by over 40 local authority subscribers. The 2010 conference will provide an opportunity to launch the newly developed dyslexia module, and will be of interest to both existing and potential subscribers. There will be taster sessions for those new to OnLineInset, as well as advanced workshops for existing subscribers, including a detailed look at developments in the learning management system underpinning the modules.

A number of existing subscribers will share their experience of OnLineInset and in doing so will explore a variety of themes.

There will be opportunities to hear about the latest innovations and new module development in OnLineInset including:

- Launch of the Dyslexia module
- Learning from others about their successful practice
- Using the evaluative data from GAS scaling

In addition there will be opportunities for new and experienced users to develop their expertise by joining:

- A taster session for new or potential users
- An advanced workshop for existing online tutors

By attending the conference you will be playing your part in shaping the future development of OnLineInset.

There will be networking opportunities throughout the day and anyone wishing to set up a special interest forum should contact the organisers.

The conference will be combined with a brief Consultative Group Meeting which is open to all subscribers, irrespective of conference attendance. This will take place from 12.45 – 1.30 and anyone not also attending the conference should contact:

administration@onlineinset.net

Places are limited so book online now at
